**RUGGED ELECTRONIC PACKAGING**

**Customizable Features:**

1. **Removable, Packaged 2.5” SATA Solid State Drive**
   - Internal drive may be selected to meet program requirements
   - Environmentally sealed enclosure to protect against rapid decompression, EMI, humidity, dust, salt fog, immersion and condensation
   - Captive thumb screws for docking. Wedge-locks available upon request.
   - Connector rated for 100,000 insertion cycles
   - Hot swappable
   - Available encryption, secure erase, destructive erase, extended temperature and/or power protection options

2. **3.5” Half Height Docking Bay for On-Vehicle Integration**
   - Available with Mini Mil-Circular Connectors or commercial SATA connector
   - SATA interface. Other interfaces available upon request.
   - +5VDC power. +28VDC option available
   - EMI filter options

3. **Desktop Docking Bay for Off-Vehicle Data Downloading**
   - SATA interface
   - Power supply included

---

**Sawatch Removable, Sealed, SATA 2.5”|3.5” Solid State Drive**

The Sawatch is a removable, sealed, rugged SATA memory device containing a 2.5” solid state drive that mates with a 3.5” docking bay.

Mountain Secure Systems (MSS) packages COTS electronics that incorporate sealed enclosures, movability, EMI/EMC shielding, extended temperature range, firmware control, conformal coating, and other techniques to meet rugged commercial and military standards, including program-specific requirements. By listening to and working closely with our customers, as well as building strong relationships with OEMs and distributors, MSS provides the most reliable rugged electronics in the marketplace. Simply put: No one can match MSS’s meticulous attention to detail and proven track record of delivering world-class performance in harsh, demanding environments.

*MSS leverages the best data storage technologies available on the commercial market. Our expertise is properly ruggedizing, packaging, and integrating the memory to meet your program requirements. While we have close relationships with many of the OEM manufacturers, we are always open to utilizing your SSD choice or recommending the proper drive for your application. Capacity, MLC/SLC, speed, operating temperature and other performance characteristics may be dependent on drive selection.*
